

PRODUCT ROADMAP

Where This Platform Is Going

Prepared for Gregory Geodjenian, EVP Growth, TM Forum

A look at what's live today, what's coming next, and the longer-term vision for Engagement Intelligence as it grows to support TM Forum's full membership.

CAPABILITIES LIVE TODAY	ENHANCEMENTS COMING NEXT	STRATEGIC MOVES ON THE HORIZON	PLATFORM, BUILT TO SCALE

Three Phases, One Platform

From what's already protecting and growing your membership today, through to the strategic capabilities that will help it scale.

PHASE 1 · AVAILABLE TODAY

Live Now

- ✓ **Member Engagement Portal**
Builds real rapport with every member, account by account.
- ✓ **Prospecting Intelligence**
AI-assisted research and a live pipeline for new membership opportunities.
- ✓ **Full Account Visibility**
Engagement history, catalysts, pipeline and maturity — one place.
- ✓ **Leadership Command Center**
Renewal risk, engagement health and team activity at a glance.
- ✓ **AI-Powered Engagement**
A 24/7 ODA Expert assistant, plus gamified learning experiences.
- ✓ **Personalized Value Briefs**
Auto-generated, account-specific benefit summaries in minutes.

PHASE 2 · COMING NEXT

In Progress

- 2 **Team & Regional Reporting**
Roll up engagement performance by team and region as the group grows.
- 2 **Unified Navigation**
Seamless drill-down between portfolio, account and prospect views.
- 2 **Refined Onboarding**
A faster, smoother first-time setup for every new Engagement Manager.

PHASE 3 · FUTURE VISION

Strategic

- 3 **CRM Integration**
Connect directly with your existing systems of record — data where your team already works.
- 3 **AI-Powered Knowledge Search**
Semantic search across engagement history and the TM Forum knowledge base.
- 3 **Enterprise-Scale Architecture**
Built to grow from a handful of accounts to your full global membership.

● Live & in use today ● Actively being built ● Strategic direction

What Each Phase Means For TM Forum

PHASE 1 · LIVE TODAY

A complete engagement operating system

Every capability in this phase is already built and in active use — not a concept, a working platform. It gives Engagement Managers a single home for relationship-building, prospecting and account intelligence, and gives leadership real-time visibility into portfolio health without waiting for a manually compiled report.

PHASE 2 · COMING NEXT

Built for a growing team

As the Engagement Management function grows beyond a single person, these enhancements make the platform work naturally across teams and regions — richer reporting, smoother navigation between views, and a faster ramp for every new Engagement Manager who joins.

PHASE 3 · FUTURE VISION

Ready to scale with TM Forum

The strategic horizon: connecting Engagement Intelligence with the systems TM Forum already relies on, layering in AI-powered search across the full body of engagement and ODA knowledge, and an architecture designed from day one to grow from a handful of accounts to the entire membership base.

*This roadmap isn't a wish list — **Phase 1 is already live**. Every future phase builds on a platform that's already proving its value, one account at a time.*
